

FOR MARINERS

On Tuesday next, Dec. 4th, the first class in connection with the marine school will be held at the Young Men's Christian Association. The course of study covers everything in connection with the scientific and practical sides of navigation, and every appliance is at hand to aid the students. Any sailor may come to the class. There is no charge whatever—all you need to have is a desire to learn. Capt. G. C. Coles will be the instructor, and those who wish to enlist or for further information, see Capt. Coles or call at the Young Men's Christian Association.
