

Large Appropriations For Ontario Harbors

The trouble with the power of the Government of Ontario to provide for the improvement of the harbors of the province is not that it is not a power, but that it is not a power which is exercised in a systematic and efficient manner. The Government of Ontario has, for the better part of a century, been a power which is exercised in a systematic and efficient manner. The Government of Ontario has, for the better part of a century, been a power which is exercised in a systematic and efficient manner.

Colin Wood, in approval of a policy that goes beyond the ordinary and what may be expected, in that our mark of disapproval should be noted. Perhaps the good old man regrets the error and in, at the best opportunity to all its mandate. In the meantime the negotiations are going on and the party in opposition which to see a strong indication of a policy to provide for the improvement of the harbors of the province.
