

INDEX; VOLUME 19.

Compiled by: ROBERT E. LEE, Editor

This index provides the reader of TELESCOPE with a complete listing of names of ships, persons, institutions, organizations, and titles found in Volume 19, 1970.

The listing of ships is complete with two exceptions; vessels previously listed in the special supplement SEAWAY SALTIES, and canallers which were included in articles entitled THE VANISHING CANALLERS. Because both of these lists were presented in an easy-to-use alphabetical arrangement, the vessels included therein have been omitted here.

Page numbers in Volume 19 are consecutive and the entire volume is treated as a single entity. Numbers given are *page numbers only*, and to avoid confusion, issue numbers are eliminated. Numbers with an asterisk indicate an illustration. Names of vessels are in *italics*; titles of articles and names of publications appear in UPPER AND LOWER CASE CAPS.
